## SUMMARY OF RECOMMENDATIONS

As a separate section in the front of each audit report we include a listing of all recommendations together with a notation as to whether the agency concurs or does not concur with each recommendation. This listing serves as a means of summarizing the recommendations contained in the report and the audited agency's reply thereto and also as a ready reference to the supporting comments. The full replies of the Montana Advisory Council for Vocational Education and the Teachers' Retirement Board are included in the back of this report.

## COMMENTS

### GENERAL

The Montana Advisory Council for Vocational Education is a federally funded agency formed under the statutory authority contained in section 2-15-122, MCA. The council was created in 1969 pursuant to federal law 20 U.S.C.A., section 1244, which requires each state to establish a state advisory council in order to receive federal vocational education funds. The council functions in an advisory capacity to the Office of the Superintendent of Public Instruction on vocational education matters. Its purpose is to ensure that vocational programs, services, and activities in Montana are functioning efficiently and are available to all persons who need and can benefit from them.

During the audit period the council had 23 members. In 1979, the legislature passed HB 634, which transferred the responsibility of council appointment from the Governor to the Superintendent of Public Instruction. The superintendent increased the council size to 29 members. The council members represent various occupations, backgrounds, and geographic locations in the state. The diversity of membership is a federal requirement to facilitate input from all sectors of Montana's citizens.

Under federal guidelines, the council serves as advisor to the "sole state agency or board" responsible

for vocational education. During fiscal year 1978-79, the Board of Public Education was the sole state agency. As of July 1, 1979, the 1979 Legislature designated the Office of Public Instruction as the agency to serve in this capacity.

The major responsibilities of the council as revised by Public Law 94-482, "Education Amendments of 1976" are:

1. To advise the sole state agency (a) in the development of the five-year State Plan for Vocational Education and the annual program plan and, (b) on policy matters arising out of the administration of these plans and reports;
2. To evaluate vocational education programs, services, and activities and publish and distribute the results thereof;
3. To assist the sole state agency in developing plans for evaluations of vocational education and to monitor these evaluations;
4. To prepare and submit through the sole state agency to the U.S. Commissioner of Education and to the National Advisory Council an annual evaluation report;
5. To consult with the State Manpower Services Council, and identify vocational education and employment and training needs of the state and assess the extent to which vocational education, employment training, vocational rehabilitation, special education, and other programs assisted under P.L. 94-482 and related Acts represent a consistent, integrated, and coordinated approach;
6. To comment at least annually on the reports of the State Manpower Services Council; and
7. To provide technical assistance to eligible vocational fund recipients and local advisory councils as may be requested by the recipients to establish and operate local advisory councils.

The council employs two staff members to assist in carrying out these responsibilities.

#### Classification of Council Employees

During fiscal year 1978-79, the executive director of the council was not classified under the state classification plan. Section 2-18-201, MCA, requires the Department of Administration to develop a classification plan "for all state positions and classes of positions in state service," which are not specifically exempt from the plan.

In January 1979, the Attorney General issued an opinion stating that council employees are state employees subject to the rules of the classification system. In February 1979, the Office of the Governor referred the matter to the Personnel Division of the Department of Administration. On March 29, 1979, the Personnel Division notified the chairman of the Advisory Council that the executive director had been classified and the appropriate payroll changes should be made.

The executive director's salary was adjusted in November 1979 to the classification level established by the Personnel Division.

#### Membership in Teachers' Retirement System

The executive director is an active member of the Teachers' Retirement System although he does not technically meet the requirements for membership set forth in

section 19-4-302, MCA. An official of the Teachers' Retirement Division of the Department of Administration stated that the director continued as an active member of the Teachers' Retirement System (TRS) after he transferred from an eligible position in 1970.

Section 19-4-302, MCA, sets forth five specific categories of persons eligible for membership in TRS. Although the executive director is involved with education, the position is not specifically enumerated in the statute. Section 19-4-303(3) provides:

"At any time a person's eligibility to become a member of the retirement system is in doubt, the retirement board shall determine his eligibility for membership. All persons in similar circumstances shall be treated alike."

It does not appear that the retirement board has considered whether the executive director is eligible for membership in the system.

#### RECOMMENDATION

We recommend that the Teachers' Retirement Board determine the eligibility of the executive director of the Advisory Council for Vocational Education for membership in the Teachers' Retirement System.

STAFF LEGAL COUNSEL

To the Legislative Audit Committee  
of the Montana State Legislature:

We have examined the balance sheet of the Montana Advisory Council for Vocational Education as of June 30, 1979 and the related statements of operation listed in the table of contents of this report for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of accounting records and such other auditing procedures as we considered necessary in the circumstances.

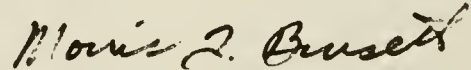

In our opinion, the financial statements referred to above present fairly the financial position of the Advisory Council for Vocational Education as of June 30, 1979 and the results of its operations and changes in fund balance for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The accompanying Schedules of Expenditures by Object and Travel, Council Compensation Expenditures

by Functional Activity and Analysis of Changes in General Fixed Assets, pages 12 and 13, are not necessary for fair presentation of the financial statements but are presented as supplemental information. This information has been subjected to the tests and other auditing procedures applied in our examination of the financial statements and in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Respectfully submitted,

ADVISORY COUNCIL FOR VOCATIONAL EDUCATION

NOTES TO THE FINANCIAL STATEMENTS  
FISCAL YEAR ENDED JUNE 30, 1979

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The preceding financial statements were prepared from the Statewide Budgeting and Accounting System (SBAS) except for the General Fixed Assets Account Group Balance Sheet which was prepared from the agency's manual records.

The state of Montana utilizes the modified accrual basis of accounting. Modified accrual is defined as "that method of accounting in which expenditures are recorded on the basis of valid obligations and revenues are recorded when received as cash. At the end of a fiscal year, all valid obligations against an appropriation are to be accrued as expenditures as provided by law." (Montana Administrative Manual 2-0240.40.)

2. RETIREMENT PLAN

The council's employees participate in two retirement plans, the Public Employees' Retirement System and the Teachers' Retirement System. Both plans are contributory. Retirement plan expense for fiscal year 1978-79 was \$2,429. The unfunded past service costs and the actuarially computed value of vested benefits were not readily available for members of the plans employed by the agency.

### 3. VACATION AND SICK PAY

Liabilities incurred because of employees' unused vacation and sick pay are not recorded. The related expenditures are recorded when paid. Permanent employees are allowed to accumulate and carry over into a new calendar year a maximum of two times their annual accumulation of vacation. Upon termination, qualifying permanent employees having unused, accumulated vacation and sick leave receive payment for vacation on a 100 percent basis and sick leave on a 25 percent basis. The amount of the liability associated with unused, accumulated vacation and sick leave at June 30, 1979 is not readily determinable under the statewide accounting system.

### 4. OFFICE SPACE

The Department of Military Affairs provides office space in Helena to the Advisory Council for Vocational Education at no charge.

### 5. METHOD OF VALUING ASSETS

The council records its office equipment at cost.
